

Arbor

Designer: **Dondoli and Pocci**

Starting from its name, a tribute to the complex beauty of nature, the Arbor coffee table collection is distinguished by the high graphic value of the base, an element that is both functional and aesthetic: an expressive geometric line, a slight and delicate frame which is at the time solid and resistant. The base in curved steel rods, with a highly decorative value, is a stylised corolla made of silhouettes of petals that support the thin but precious top, made in the same finish as the base, or in various types of glass or

ceramic. The base is available in multiple finishes and can be completed with a painted metal bottom, which serves as a practical magazine rack or tray for objects. Available in 5 different sizes, the Arbor coffee tables can be used as unique elements or in groups, to create original compositions; paired with the console of the same name, they make it possible to create environments with a coordinated style.
