

Pivot

Designer: **Marconato and Zappa**

The Pivot table takes its name from the unusual shape of the base: the central leg of the acts as a pivot for the three legs which extend to the sides. The result is an asymmetric and highly original combination that makes a

statement in the room. The legs are made of coal oak or walnut solid wood with metal inserts, while the top is available in marble, wood, glass and ceramic, in the two round and round-edged versions.
