

Prora

Designer: **Mauro Lipparini**

The powerful, inclined profile of the base, which recalls the bow of a ship, creates a dynamic, plastic presence that becomes the central feature of rooms, furnishing and, at the same time, optimising the seating space. The many finishes available for the base and the top allow the option of full personalisation without compromising the purity of the design and, instead, amplifying the artistic value. The

top is made in various sizes and is offered in fixed and extendable versions. In the latter version, the two independent side extensions enable the surface length to easily be increased, maintaining excellent stability and solidity without renouncing a clean-cut and sought-after aesthetic.
